Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this zone.)\*

Mallon Oil company would like to request a Shut-in gas well waiting on pipeline status.  
The line pressure at Gas Buggy has elevated to 300 psi and above. Due to the high line pressure the Jicarilla 451 No. 1 is not producing. However within six months to a year Mallon Oil Company will propose a pipeline for the new wells South of Highway 64. Jicarilla 451 No. 1 will be tied into the pipeline at a lower pressure. Production can continue at that time.

This well is capable of producing at a lower line pressure.

14. I hereby certify that the foregoing is true and correct

Signed

Christy Serrano
