Royal Development Company  
P.O. Box 1299  
Albuquerque, New Mexico

Att: Mr. H. E. Shillander

Gentlemen:

We received this morning Form C-128 on your #1 Douthit well located in the SE $\frac{1}{4}$  Section 33-28N-13W. This is to advise that we have no information filed on this well by way of Notice of Intention to Drill and subsequent reports to indicate that this well is to be drilled or is drilling. Will you please immediately file with this office copies of all previous forms filed with the U.S.G.S. Office in Farmington on this well.

We are also enclosing a supply of revised Form C-128. Please outline on the face of the plat the acreage to be dedicated to this well and answer all questions as indicated on the plat. The form should be signed by you on the right hand side of the form as Operator's Representative.

It is my understanding from the Scout Reports that this well has been completed in the Dakota Sandstone as a gas-distillate well. If so the proper acreage dedication would be 160 acres, being the quarter-section upon which the well is located.

Yours very truly

Emery C. Arnold  
Supervisor, District #3
