This Sundry Notice is submitted to inform the Farmington District Office of the BLM of BHP's intent to condition the GCU #125 to a useful function. BHP is currently re-completing the GCU #3 as part of a Fruitland Coal recompletion package. Since the GCU #125 is close in proximity to the GCU #3, BHP is evaluating the effectiveness of the completion procedure on the #3 before making plans to recomplete the #125. Plugback of the Simpson-Gallup and recompletion to the Fruitland Coal on the GCU #125 will be done in 1994 when the current recompletion package is finished. The exact date will be included in the 1994 Plan of Development to be submitted by BHP.
