13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On 5/10/01 Amoco Production requested an extension of time to further evaluate this well bore to determine if a well servicing operation could be performed such that the well may be returned to production status. If attempt to restore well to production was unsuccessful then we would proceed to plug and abandon.  
No attempt to restore to production was ever initiated.

Our original P&A sundry was filed 3/20/00 and approval was granted 4/5/00. We respectfully request to ~~withdraw that original P&A Notice of Intent.~~

BF America Production Company requests permission to Temporarily Abandon the subject well in order to hold for future re-entry to Picture Cliffs sand.
