ADMINISTRATIVE ORDER DHC-2623

Phillips Petroleum Company
5525 Hwy. 64
Farmington, New Mexico 87401

Attention: Mr. Mark Stodola

*San Juan 29-6 Unit No. 51
API No. 30-039-07470
Unit N, Section 31, Township 29 North, Range 6 West, NMPM,
Rio Arriba County, New Mexico.
Blanco-Mesaverde (Prorated Gas - 72319), and
South Blanco-Pictured Cliffs (Prorated Gas - 72439) Pools*

Dear Mr. Stodola:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's San Juan Basin Gas Proration Schedule.

Production from the well shall be allocated as follows:

Oil and gas production from the South Blanco-Pictured Cliffs Gas Pool shall be determined by utilizing the production forecast submitted as an attachment to the downhole commingling application. Oil and gas production from the Blanco-Mesaverde Gas Pool shall be determined by subtracting South Blanco-Pictured Cliffs Gas Pool production from the well's total monthly oil and gas production.
