February 1, 1960

Well No. 10-33 is located 1500 ft. from [N] line and 300 ft. from [E] line of sec. 33

NE/4 S. 33 (1/4 Sec. and Sec. No.) 291 (Twp.) 4W (Range) 14W (Meridian)
Blanco Mesa Verde (Field) Rio Arriba (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is 7372 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It was originally intended to complete this well in the Mesa Verde & Dakota formations. The Dakota formation was found to be non-commercial, therefore, the well was completed in the Mesa Verde formation only.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company El Paso Natural Gas Company
