BUREAU OF PLANT INDUSTRY
WASHINGTON, D. C.

THE PLANT INDUSTRY OF THE UNITED STATES

The plant industry of the United States is one of the most important and most rapidly growing industries of the country. It is the source of many of the raw materials and products which are essential to the life and health of the people. The plant industry is also one of the most important sources of employment and income for the people. The plant industry is a very broad term which includes the cultivation of crops, the raising of livestock, and the processing of raw materials into finished products. The plant industry is a very important part of the economy of the United States and it is one of the most important sources of employment and income for the people.
