Re: El Paso Nat. Gas Co.

San Juan 29-5 Unit NP

#13-H 30-29N-5

Let us know what is the status of the Basin Dakota side. It was drally completed since April of 1960, but production has been reported for Blanco M.V.

BY Ad McLean Thanks,

DATE 1-3-1-66

The Dakota side had an AOF of 908 MCF/D and has not as of this date been connected. Annual packer tests have been submitted - I could not say if or when it will be connected.
