Mr. Robert Flesher
Phillips Petroleum Company
5525 Highway 64
Farmington, NM 87401

RE: San Juan Unit 29-5 #10, L-16-29N-05W

Dear Mr. Flesher:

In light of the fact that the referenced well has had communication between the 10-3/4" surface casing and the 7-5/8" intermediate casing throughout it's history, remedial activity will not be required at this time, provided bradenhead tests are conducted annually and surface casing pressures are monitored regularly. Please make sure that copies of tests are forwarded to this office.

Yours Truly,

Charles Gholson
Deputy Oil and Gas Inspector

XC: Well File
