17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well produced commercially through a temporary line until the practice was discontinued in 1962. The well will be investigated for a casing leak, and if it has one, abandonment or workover will be recommended. If the well does not have a casing leak, it is intended to maintain the well in a shut-in status for possible future production in the event it becomes economically feasible to lay a permanent line to the well.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
