Re: El Paso Natural Gas Company Well
San Juan 29-4 Unit #7
D-8-29N-4W

Dear Mr. Kendrick:

We are in receipt of the memorandum from Mr. Maxwell concerning the apparent interzonal communication within the referenced well.

The well does not produce hydrocarbons in sufficient quantities to presently merit tying the well into the nearest pipeline. The well is located within a National Forest and the Forest Service has closed the road to the well.

The well is being evaluated to determine the most reasonable remedial action to be taken to isolate the zones in accordance with regulatory requirements.

Yours truly,

William D. Dawson
