13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Phillips P&A'd the Dakota interval in May of 2002 and left the wellbore open for uphole potential. See subsequent report dated 5/28/02. We have determined that we want to add the MV interval to this well. Brief details of the procedure we will be using is as follows:

MIRU. ND WH & NU BOP. Perforate the MV intervals (including the Lewis Shale), acidize and stimulate as needed. C/O to PBTD. RIH w/tubing and ND BOP, NU WH. Return well to production as a MV single. Attached is the MV plat.

14. I hereby certify that the foregoing is true and correct.

**Electronic Submission #13020 verified by the BLM Well Information System
For PHILLIPS PETROLEUM COMPANY, sent to the Farmington
Committed to AFMSS for processing by Steve Mason on 07/25/2002 (02SXM0432SE)**
