13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The subject well failed the packer leakage test performed 1/99 and Phillips wishes to shut-in the well until the well can be evaluated for future Lewis Shale pay add and possible down-hole commingling approval. Since the commingle approval will require hearing we would like to request as much time as possible for the well to be shut-in for evaluation.
