(other) Evaluating Picture Cliffs Formation

RECEIVED
JUL 23 1982

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The Picture Cliffs formation in this well will be considered at some later date as a possible recompletion candidate. However, at which time the Picture Cliffs formation is tested in well No. 24, and if found productive, Amoco Production Company believes that the formation would be marginally economical at best.
