Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

A neutron source logging tool (FDC-C&L-GR) became stuck in the sidewall of the subject well at 1749'. The 5-1/2" casing was run and cemented with the logging tool still in the hole (the cementing details will be supplied in the spud & set casing sundry). Gearhart will be posting a brass plate on the wellhead indicating that there is a radioactive source in the hole.

(Verbal approval was obtained from John Keller on 12-11-84)
