Attention: G.M. Pecorino

Administrative Order NSL-3323

Dear Mr. Pecorino:

Reference is made to your application dated July 13, 1993 for a non-standard coal gas well location for your Phillips Rio Arriba "B" Well No. 1 to be drilled 1150 feet from the North line and 730 feet from the East line (Unit B) of irregular Section 12, Township 29 North, Range 5 West, NMPM, Basin Fruitland Coal Gas Pool, Rio Arriba County, New Mexico. Lots 1 and 2, the W/2 NE/4 and NW/4 (N/2 equivalent) of said Section 12 shall be dedicated to the well forming a standard 274.00-acre, more or less, gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, as amended, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay
Director

Rio Arriba County

Dear Michael:

Ernie Busch told me that you are waiting for a copy of the topographic map before approving the subject application.

Enclosed are three copies of the topographic map showing the severe terrain to the west of the well stake.

The elevation at the well is 7629' and the heavy contour line in La Baca Canyon at the west side of section 12 represents 6800'.

If there are further questions, please contact me.

Yours very truly,

A. R. Kendrick
