13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

The original APD for this well was approved February 24, 2000, but the NMOC would not approved the Non-standard location therefore the location had to be moved. This is the second time the location was moved. Please disregard the location change sundry dated 4/4/00.

Find attached the new C102s, cut and fill, maps and updated "Surface Use Plan" which includes the new pipeline plat. We would like to use the APD/ROW process on this pipeline. Revised archaeological reports will also be submitted to cover the changes.
