Dear Mr. Fullop:

We have received copies of Federal Application for Permit to Drill for your Table Mesa #1, #2, #3 and #4 wells located in Sections 3 and 9 of Township 27 North; Range 17 West and Section 34, Township 28 North, Range 17 West. Each of these locations is non-standard according to our spacing rules in that they are closer than 330 feet to the quarter-quarter section lines. The locations, as staked, can only be approved for production after Notice and Hearing before the Oil Conservation Commission in Santa Fe. I am sending you the notification to afford you the early opportunity to make application for a hearing prior to the time that the wells have been completed, or to change the locations to standard locations.

If you have questions concerning the matter, please contact us.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
