Dear Ms. Bradfield:

Reference is made to your application dated March 11, 1994, for a non-standard gas well location for San Juan 29-7 Unit Well No. 92-R to be drilled 450 feet from the South line and 2025 feet from the West line (Unit N) of Section 16, Township 29 North, Range 7 West, NMPM, Blanco Mesaverde Pool, Rio Arriba County, New Mexico. Dear Mr. LeMay:

Meridian Oil Inc. is applying for administrative approval of a non-standard location for the above location in the Blanco Mesa Verde formation. This application for the referenced location is due to terrain as shown on the topographic map and archaeology.

The following attachments are for your review:

1. Application for Permit to Drill.
2. Completed C-102 at referenced location.
3. Offset operators/owners plat
4. 7.5 minute topographic map showing the orthodox windows for the southwest quarter dedication for the Pictured Cliffs and the south half dedication for the Fruitland Coal; and enlargement of the map to define topographic features.
5. If the well were directionally drilled to a standard bottom hole location, the economics would be severely burdened due to the incremental directional drilling costs of \$110,000.

Meridian Oil Inc. is operator of the San Juan 29-7 Unit and is the offsetting operator for this section.

Sincerely,

Peggy Bradfield
Regulatory/Compliance Representative
