Gentlemen:

According to the records in our files, Supplement NW 3059 dated February 20, 1958, on the Delhi-Taylor Oil Company's Prichard No. 4, Aztec Pictured Cliffs Pool should show an AD Factor of 246 MCF/D rather than 329 MCF/D (.71 unit x 346 MCF/D deliverability). The allowables for the months of February, March and April were calculated using an AD Factor of 329 MCF/D.

At your earliest convenience, will you please make the necessary corrections if our records are correct.

Yours very truly,

D. H. Rainey
