NOTICE OF INTENTION TO PULL OR ALTER CASING.....	X	SUPPLEMENTARY WELL HISTORY.....
NOTICE OF INTENTION TO ABANDON WELL.....		

(INVESTIGATION BY SHERIFF MARSH HATHAWAY OF BIRMINGHAM, ALABAMA, OR OTHER STATE)

Vandevent  
 Well No. 1-11 is located 1474 ft. from SW [S] line and 1730 ft. from SW line of sec. 11.  
SW 1/4 Sec. 11  
 (Sec. and Sec. No.)  
Basin Dakota  
 (Field)

<u>T-39-N</u> (Township)	<u>R-8-W</u> (Range)	<u>SW 1/4</u> (Section)
<u>San Juan</u> (County or Subdivision)		

The elevation of the derrick floor above sea level is 630 ft.

## **DETAILS OF WORK**

(State names of and expected depths to objective sounds; show sizes, weights, and lengths of proposed dredges; indicate sounding lines, sounding points, and all other important proposed work)

Well drilled to T.D. of 165 and 5 joints of 10-5/8" casing landed at 137'. It is our desire not to drill the well to the Dakota at the present time. A steel plate will be welded in the top of the surface casing, standard well connector inserted and surface returned to original contour.

I understand that this plan of work must receive approval in writing by the Geological Survey before commencing work.

Company Balki-Taylor Oil Corporation

Title THE SILENT LAND

1. *Chlorophytum comosum* L. (Liliaceae) -  
This plant is a common species found throughout the world, particularly in tropical and subtropical regions. It has a dense cluster of long, narrow, sword-shaped leaves at the base, and a single, upright flower spike with numerous small, bell-shaped flowers.

2. *Clivia miniata* (A.A. Gray) Sweet (Amaryllidaceae) -  
This is a popular houseplant from South Africa. It features large, showy, orange-red flowers arranged in a terminal spike. The leaves are thick, strap-like, and arranged in a fan shape.

3. *Crinum asiaticum* L. (Amaryllidaceae) -  
A large, clump-forming plant with long, pendulous, drooping flowers in shades of white, yellow, or pink. The leaves are long and linear, often with distinct purple markings.

4. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is another variety of Crinum, similar to the one above but with slightly different flower colors or leaf patterns. It is also a member of the Amaryllidaceae family.

5. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a third variety of Crinum, possibly a different species or subspecies. It has long, pendulous flowers and long, linear leaves.

6. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a fourth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

7. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a fifth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

8. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a sixth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

9. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a seventh variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

10. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a eighth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

11. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a ninth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

12. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a tenth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

13. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a eleventh variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

14. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twelfth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

15. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirteenth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

16. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a fourteenth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

17. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a fifteenth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

18. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a sixteenth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

19. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a seventeenth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

20. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a eighteenth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

21. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a nineteenth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

22. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twentieth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

23. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-first variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

24. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-second variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

25. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-third variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

26. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-fourth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

27. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-fifth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

28. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-sixth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

29. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-seventh variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

30. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-eighth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

31. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a twenty-ninth variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

32. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

33. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-one variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

34. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-two variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

35. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-three variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

36. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-four variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

37. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-five variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

38. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-six variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

39. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-seven variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

40. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-eight variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

41. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a thirty-nine variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

42. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

43. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty-one variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

44. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty-two variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

45. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty-three variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

46. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty-four variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

47. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty-five variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

48. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty-six variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

49. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty-seven variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.

50. *Crinum asiaticum* L. (Amaryllidaceae) -  
This is a forty-eight variety of Crinum, similar to the others but with some unique characteristics. It is also a member of the Amaryllidaceae family.
