February 15, 1952

Well No. 2-1 is located 1650 ft. from N line and 990 ft. from W line of sec. 10

NW SW Section 10 29N OW N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Blanco-La Plata San Juan New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6375 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate muddling jobs, cementing points, and all other important proposed work)

7" casing @ 4651.

It is intended to change plans of drilling in the following manner:

To drill a hole off the vertical by 100' @ the vertical total depth, to shoot this whipstocked hole and clean it out. Then to drill a vertical hole, shoot it and clean it out also. Thus completing with two bore holes in the Mesa Verde formation. Both holes will be drilled with gas circulation.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
