1. The first of these is the fact that the United States has a long history of supporting the United Nations. This is evident in the fact that the United States has been a member of the United Nations since its inception in 1945. The United States has also been a leading contributor to the United Nations budget and has played a key role in the development of the United Nations system. This commitment to the United Nations is a testament to the United States' commitment to international law and the principles of the United Nations Charter.
