1. The first of these is the fact that the Commission has not yet received any information from the Government of the United Kingdom regarding the progress of its investigation into the activities of the British Security Organisation (BSO) in the United States. This is a matter of great importance, as the BSO is a well-known and active organization in the United States, and its activities have been the subject of extensive reporting in the press. The Commission is therefore very anxious to receive information from the Government of the United Kingdom regarding the progress of its investigation into the activities of the BSO in the United States.
