Dear Mr. Heard:

Your company has recently dually completed a well located in the NE<sup>1</sup>/<sub>4</sub> Section 6-29N-8W ; in the Pictured Cliffs and Mesaverde Formations.

This well, the #1 Pritchard, was previously drilled in 1953 and our records indicate it was located 1650 feet from the North and 2269 feet from the East lines of Section 6; however recent Miscellaneous Reports and Form C-128 submitted for the Pictured Cliffs formation show the location to be 1650 feet the North and 1650 from the East lines.

Will you please clarify the above matter.

Yours very truly

Emery C. Arnold  
Supervisor, District #3
