Gentlemen:

This is to inform the Commission on the status of the captioned well.

On several occasions we have attempted to run the annual deliverability test, as required by the Commission, but to no avail. Each time the test was started, the well would die or simply could not buck the line pressure. We are now in the process of re-working and cleaning up this well so that a test can be run and the report will be forthcoming.

Yours very truly,

POSTOAK OIL CO.
