☐ Non-Routine Fracturing  
☐ Water Shut-Off  
☐ Conversion to Injection

**Add Mesaverde & Downhole Commingle**

(Note: Report results of multiple completion on Well Completion or  
Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

On August 4, 1999, Amoco Production Company submitted a request for permission to add the Mesaverde formation and downhole commingle production with the existing Basin Dakota formation in the subject well. Approval was granted on August 30, 1999.

This is to advise that the proposed addition of the Mesaverde and downhole commingling operations have not been performed and at the present time we do not intend to proceed with such operations. The well will remain a single producer in the Basin Dakota formation.

14. I hereby certify that the foregoing is true and correct
