Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On February 10, 2000, Amoco Production Company submitted for your approval a Sundry Notice of our intent to plug and abandon the subject well. Amoco has since instituted a policy whereby each wellbore will be more closely reviewed to determine if an attempt may be made to restore it back to production status either in the existing zone or uphole and avoid premature abandonment of possible reserves. Amoco, therefore, request permission to maintain this wellbore in a shut-in status pending the wellbore review which we anticipate will be completed for all wells in the San Juan Basin in the 4th quarter of this year. If review indicates no potential exist for this well we will resubmit plugging procedure for your approval.
