*Gentlemen:*

*Reference is made to past correspondence regarding required remedial action on your #1 Robert Mims State well in Unit N, Section 16-29N-9W. Tests conducted on this well indicated the presence of significant amounts of water and gas which indicated that oil, gas and water are not being confined to the strata in which they were encountered, as required by our rules.*

*In the event remedial action has not been commenced within 60 days it is our intention to call for a hearing to have the company show cause why this well should not be repaired as required by our rules.*

*Yours very truly*

*Emery C. Arnold  
Supervisor, District #3*
