## INSTRUCTIONS

This form shall be executed and filed in QUADRUPLICATE with the District Office of the Oil Conservation Commission, covering each unit from which oil or gas is produced. A separate certificate shall be filed for each transporter authorized to transport oil or gas from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer, and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one proration period, the operator shall in lieu of filing a new certificate notify the Oil Conservation Commission District Office, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil or gas to be moved by the transporter temporarily moving oil or gas from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil or gas than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil and gas from the property named therein and shall remain in full force and effect until

- (a) Operating ownership changes
- (a) The transporter is changed or
- (c) The permit is cancelled by the Commission.

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil or gas, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil or gas.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.

Subject: Designated Drilling Unit  
Lobato Gas Unit No. 1  
1750' from South Line and  
1550' from West Line,  
Section 3, T-29-N, R-9-W  
Blanco-Mesaverde Field  
San Juan County, New Mexico

Mr. Emery C. Arnold (6)  
Oil and Gas Inspector, District #3  
Aztec, New Mexico

Dear Sir:

This letter is in regard to our Notice of Intention to Drill, State Form C-101, dated March 26, 1953, which has been submitted to your office. It was noted that the designated drilling unit was shown as the South Half of Section 3, T-29-N, R-9-W. The designated drilling unit should be corrected to read West Half of Section 3, T-29-N, R-9-W.

Stanolind's Chavez Gas Unit No. 1, located in the NE/4 of Section 3, T-29-N, R-9-W, already has a designated drilling unit of the East Half of Section 3, therefore, necessitating a West Half designation for the Lobato Gas Unit No. 1.

We would appreciate your correcting your records accordingly.

Very truly yours,

ORIGINAL SIGNED
