17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Electric logs conducted for this well indicate that the Fruitland formation, as well as the Pictured Cliffs formation, to be gas productive. We would like to amend our original Application for Permit to drill to include the Fruitland formation as a gas producing zone, in conjunction with the Pictured Cliffs formation. We intend to downhole commingle the two zones, pending approval to commingle.
