On May 7, 2001, Amoco Production Company submitted a request for permission to complete the subject well into the Blanco Mesaverde and commingle production downhole with the existing Basin Dakota Pool. Approval was granted on May 17, 2001, DHC-404AZ. Original procedure indicated that we intended to perf the Point Lookout, Menefee, and Cliffhouse formations. We respectfully request permission to add perforations and a fracture stimulation in the Lewis Shale formation along with the Point Lookout, Menefee, and Cliffhouse formations.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
