Re: State Lease #2302
State Lease #1

Dear Sir:

Thank you for the assistance given me on the phone on June 22, and for the C-104 and Plugging Bond forms I received shortly thereafter. I have finally located Bond #482142 at the home office of the Great American Surety Co. We have agreed that it would be quicker to get a new bond than our regular local insurance broker. I am applying for it today.

To avoid any possible further delay, I am enclosing 7 copies of the C-104 Application, and one copy, as I have partially completed it, of the Plugging Bond, which will be forwarded to you by the New Mexico Agent of the Surety Company after they complete it.

Will you please examine these and advise if they are correct. If not, will you please mark one of each with your comments and corrections and return them to me, with some additional bond forms. I will then immediately re-submit them to the Surety Co. and thus possibly save several weeks of further delay.

I would also like to receive any monthly production reports, which may be issued. Again thanking you,

Sincerely

J. Zalles

J. Zalles, for
Zalles Bros. & S. Leph

Henry -
Have reviewed their
Sample bond and marked places
that need their attention, particularly
the section footage for well location
and returned it to them.

W.A.
