Re: NEBU #4 M-21-30N-07W

Dear Al:

As the enclosed copy of the 1993 Bradenhead Test on the referenced well indicates, the well was not tested in 1993 because the Bradenhead valve could not be opened. According to our records, the well was also not tested during the last scheduled test period in 1990. You are hereby directed to complete the test prior to January 1, 1994.

Yours truly

A handwritten signature in cursive script, appearing to read "Charles Gholson".
