Max. pr. 3000 ft. I.R. 43 B.M. 1100-1200-1400-2000-2200 ft.
10-10-59 Set retrievable packer at 2860 ft. compressed top of liner with 100 sacks neat.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, changes made in the casing, state fully, and if any casing was sidepacked or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
