(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was temporarily abandoned in 1971 in the following manner:

A string of drill collars and pipe was run to 2900', 1635 sks. of cement circulated to surface.

It is now intended to plug and abandon this well in the following manner:

Pick up string of 1 1/4" tubing, go in hole and tag bottom.

Spot a 10 sk. cement plug inside the 6" drill collars on bottom.

Spot a 10 sk. cement plug inside the 3 1/2" drill pipe across from the base of the Ojo Alamo formation.

Spot a 10 sk. cement plug inside the 3 1/2" drill pipe across from the base of the surface casing.

Cut off the drill pipe below the companion flange at the surface.

Remove flange and valve.

Place a 5 sk. cement plug at surface.

Erect a dry hole marker and clean location.
