(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

9/2/97

The plug blocking Dakota production was knocked out of the tubing and the sliding sleeve across the Mesaverde perms was closed. The Dakota zone is now producing and the Mesaverde zone is shut-in.

Once pressures are stablized the sliding sleeve across the Mesaverde perms will be opened and the Dakota and Mesaverde production will be commingled. A sundry will be submitted reporting the date commingling occurs.
