Blackwood & Nichols Co., Ltd. P. O. Box 1237 Durango, Colorado 81301

Attention: DeLasso Loos

Administrative Order NSL-1152

Gentlemen:

Reference is made to your application for a non-standard location for your Northeast Blanco Unit Well No. 24R to be drilled 760 feet from the South line and 2240 feet from the East line of Section 17, Township 30 North, Range 7 West, NMPM, Blanco Mesaverde Pool, Rio Arriba County, New Mexico.

By authority granted me under the provisions of Pule 104 F, the above-described unorthodox location is hereby approved.

Sincerely,

JOE D. RAMEY, Director

JDR/RLS/dr

Mr. Joe D. Ramey, Secretary-Director New Mexico Energy Resources Board New Mexico Oil Conservation Commission P. O. Box 2088 Santa Fe, New Mexico 87501

Re: Application for a non-standard location, Northeast Blanco Unit Well No. 24R

Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval of a non-standard well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 24R, a replacement well, located 760' F/SL - 2240' F/EL, 0-17-30N-7W, Rio Arriba County, New Mexico.

As per the enclosed map the SW/4 of Section 17, T-30N-R7W, Rio Arriba County, New Mexico is mostly inundated by the Navajo Lake. Due to the lake we have surveyed the well site in the most practical location. While repairing a casing leak on the original Northeast Blanco Unit No. 24 well, located 420' F/SL - 2515' F/EL, Section 17, T-30N, R7W, Rio Arriba County, New Mexico, extreme mechanical difficulties were encountered, consequently, the well was plugged and abandoned.

All offset acreage is within the bounds of the Northeast Blanco Unit and will present no drainage problems to any offset operator.

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.

DeLasso Loos, District Ma
