Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any  
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones cer-  
tinent to this work.)\*

Southland Royalty Company has received approval to temporarily abandon subject well  
(reference our sundry notice dated 9-24-84). Based on our need for a water disposal  
well in this area and on our earnest efforts to evaluate the feasibility of converting  
this well to water disposal, we propose to amend the approved sundry notice as follows  
by conducting injectivity tests in the Pictured Cliffs formation. The recommended  
revised procedure is as follows:

1. MIRU Service Unit
2. TOOH with tubing.
3. TIH with 4-1/2" packer and tubing. Set packer at  $\pm$  3765'
4. Conduct injectivity tests.
5. RD and MO Service Unit.
6. Complete evaluation for water disposal.

Above work will be completed by 6-01-85, weather permitting.
