Re: Dedicated Acreage in Section 1 - T30N-R6W

Dear Mike:

We have discovered that the Dakota acreage has been dedicated in error in the referenced section. The #40 well shows a north half dedication of 320 acres and should be 272.81 acres as required by Order R-2046A. Please submit an amended plat immediately.

The east half dedication of 226.61 acres for the Blanco Mesa-verde Pool can be approved only by application to the Division director.

If you have any questions, please contact this office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Frank T. Chavez".

Frank T. Chavez
District Supervisor
