Re: Injection Pressure Increase
→ San Juan 30-6 Unit Well No.
112Y, Rio Arriba County, New
Mexico.

Dear Sir:

Reference is made to your request of October 1, 1986 to increase the surface injection pressure on your San Juan 30-6 Unit No. 112Y Well. This request is based on a step rate test conducted on the well on September 26, 1986. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase your surface injection pressure on the following well:

<u>Well & Location</u>	<u>Maximum Injection Surface Pressure</u>
San Juan 30-6 Unit No. 112Y 1120 FNL & 870 FEL (Unit A) Sec. 26, T-30N, R-6W, NMPM Rio Arriba County, New Mexico	1910 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or it is endangering any fresh water aquifers.

RECEIVED
OCT 22 1986
OIL CON. DIV.
DIST. 3

Sincerely,

R. L. STAMETS
Director
