(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any  
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-  
nent to this work.)

Long term temporary abandonment approval is requested for this well pending flow test results. We would like to forego plug & abandonment procedures and temporarily abandon this well by setting a CIBP @ 2975' (41' above top perf) and spotting a 25 sx (219') cement plug on top of the CIBP. Corrosion inhibitor to be displaced in the casing from the CIBP to the surface. Tubing will be pulled and the wellhead to be secured with a valve for pressure monitoring as needed.

Verbal approval of the above received from Kenny Howell August 2, 1989

THIS APPROVAL IS FOR

18. I hereby certify that the foregoing is true and correct
