Section 7-T30N-R2W 3 W
Rio Arriba County, New Mexico

### Gentlemen:

We request administrative approval of an unorthodox location for our Jicarilla 458 #3 Pictured Cliffs formation gas well, located 1815'FNL and 230'FEL, Section 7-T30N-R3W, Rio Arriba County, New Mexico. This well staking is 560 feet too close to the section line separating Section 7 and Section 8. You will note from the enclosed topographic map that there is no other area for an economically buildable location in this quarter section due to the rough topography. Also enclosed is a lease map indicating that Robert L. Bayless is the operator of all surrounding 160 acre tracts to this well.

If you need any further information on this well, please advise.
