13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this zone.)

Mallon Oil Company would like to correct the footage for the above referenced well. MOC has resurveyed the existing location. And has found that the correct footage is as follows:

1818' FNL and 231' FEL
Sec. 7, T30N-R03W

The above well is an existing old Bayless well.

According to Daggett the well had been staked in 1987, when the land surveying on the reservation was fairly new. So the footage above is accurate with the current surveying of the land.

14. I hereby certify that the foregoing is true and correct
