Administrative Order NSL-2530

Dear Mr. McCord:

Reference is made to your application for a non-standard location for your Jicarilla 458 Well No. 8 to be located 2240 feet from the North line and 1410 feet from the West line of Section 7, Township 30 North, Range 3 West, NMPM, Wildcat Pictured Cliffs Pool, Rio Arriba County, New Mexico. A 133.39-acre non-standard gas proration unit consisting of Lots 3 and 4 of Section 7 and Lot 10 of Section 6 shall be dedicated to the well.

By the authority granted me under the provisions of Rule 104 F(I), the above-described unorthodox location is hereby approved.

REMARKS: No allowable will be assigned to the above-described well until the non-standard gas proration unit is approved by the Division.

Sincerely,

William J. LeMay

RE: Request for Administrative Approval  
of an Unorthodox Location  
Jicarilla 458 #8  
2240' FNL & 1410' FWL  
Section 7, T30N, R3W  
Rio Arriba County, New Mexico

Dear Mr. LeMay:

We request administrative approval of an unorthodox location for our Jicarilla 458 #8 Pictured Cliffs formation gas well, located 2240' FNL & 1410' FWL, Section 7, T30N, R3W, Rio Arriba County, New Mexico. This well is located in an irregular section and, therefore, cannot be located in standard statewide gas spacing. Besides, the topography in the area is very rugged, as shown in the enclosed topographic map, which causes this well to be staked at the above location.

You will also find enclosed a lease map indicating that Robert L. Bayless is the operator of all surrounding 160 acre tracts to this well other than the spacing units to the west of this well's spacing unit. You will note that none of these offset leaseholders are adversely affected by the location of this well. As per NMOCDC Regulations, by copy of this letter to offset leaseholders, we are asking that they waive any objection to this location.

Yours truly,

*Kevin H. McCord*
