Administrative Order NSL-2594

Dear Mr. McCord:

Reference is made to your application of September 30, 1988 for a non-standard gas well location for your Jicarilla 458 Well No. 6 to be located 1050 feet from the North line and 1700 feet from the West line (Unit C) of Irregular Section 8, Township 30 North, Range 3 West, NMPM, East Blanco Pictured Cliffs Pool, Rio Arriba County, New Mexico. Lots 3 and 4 and the S/2 NW/4 of said Irregular Section 8 shall be dedicated to the well forming a standard 150.35-acre gas spacing and proration unit.

By the authority granted me under the provisions of General Rule 104 F(I), the above-described unorthodox gas well location is hereby approved.

Sincerely,

William J. LeMay
Director

RE: Request for Administrative
Approval of an Unorthodox
Location
Jicarilla 458 #6
1050' FNL & 1700' FWL
Section 8, T30N, R3W
Rio Arriba County, New Mexico

Dear Mr. LeMay:

We request administrative approval of an unorthodox location for our Jicarilla 458 #6 East Blanco Pictured Cliffs formation gas well as referenced above. This well is located in an irregular section which forces dedication of 150.35 acres to this location. Due to the rough terrain found in this spacing unit, as evidenced by the attached topographic map, this location is staked thirty feet (30') south of the normal spacing requirements.

Robert L. Bayless is the operator of all surrounding 160 acre tracts to this well, so no offset leaseholders will be adversely affected by the location of this well. Consequently, NMOCD Regulations concerning the notification of offset leaseholders does not apply.

Yours truly,

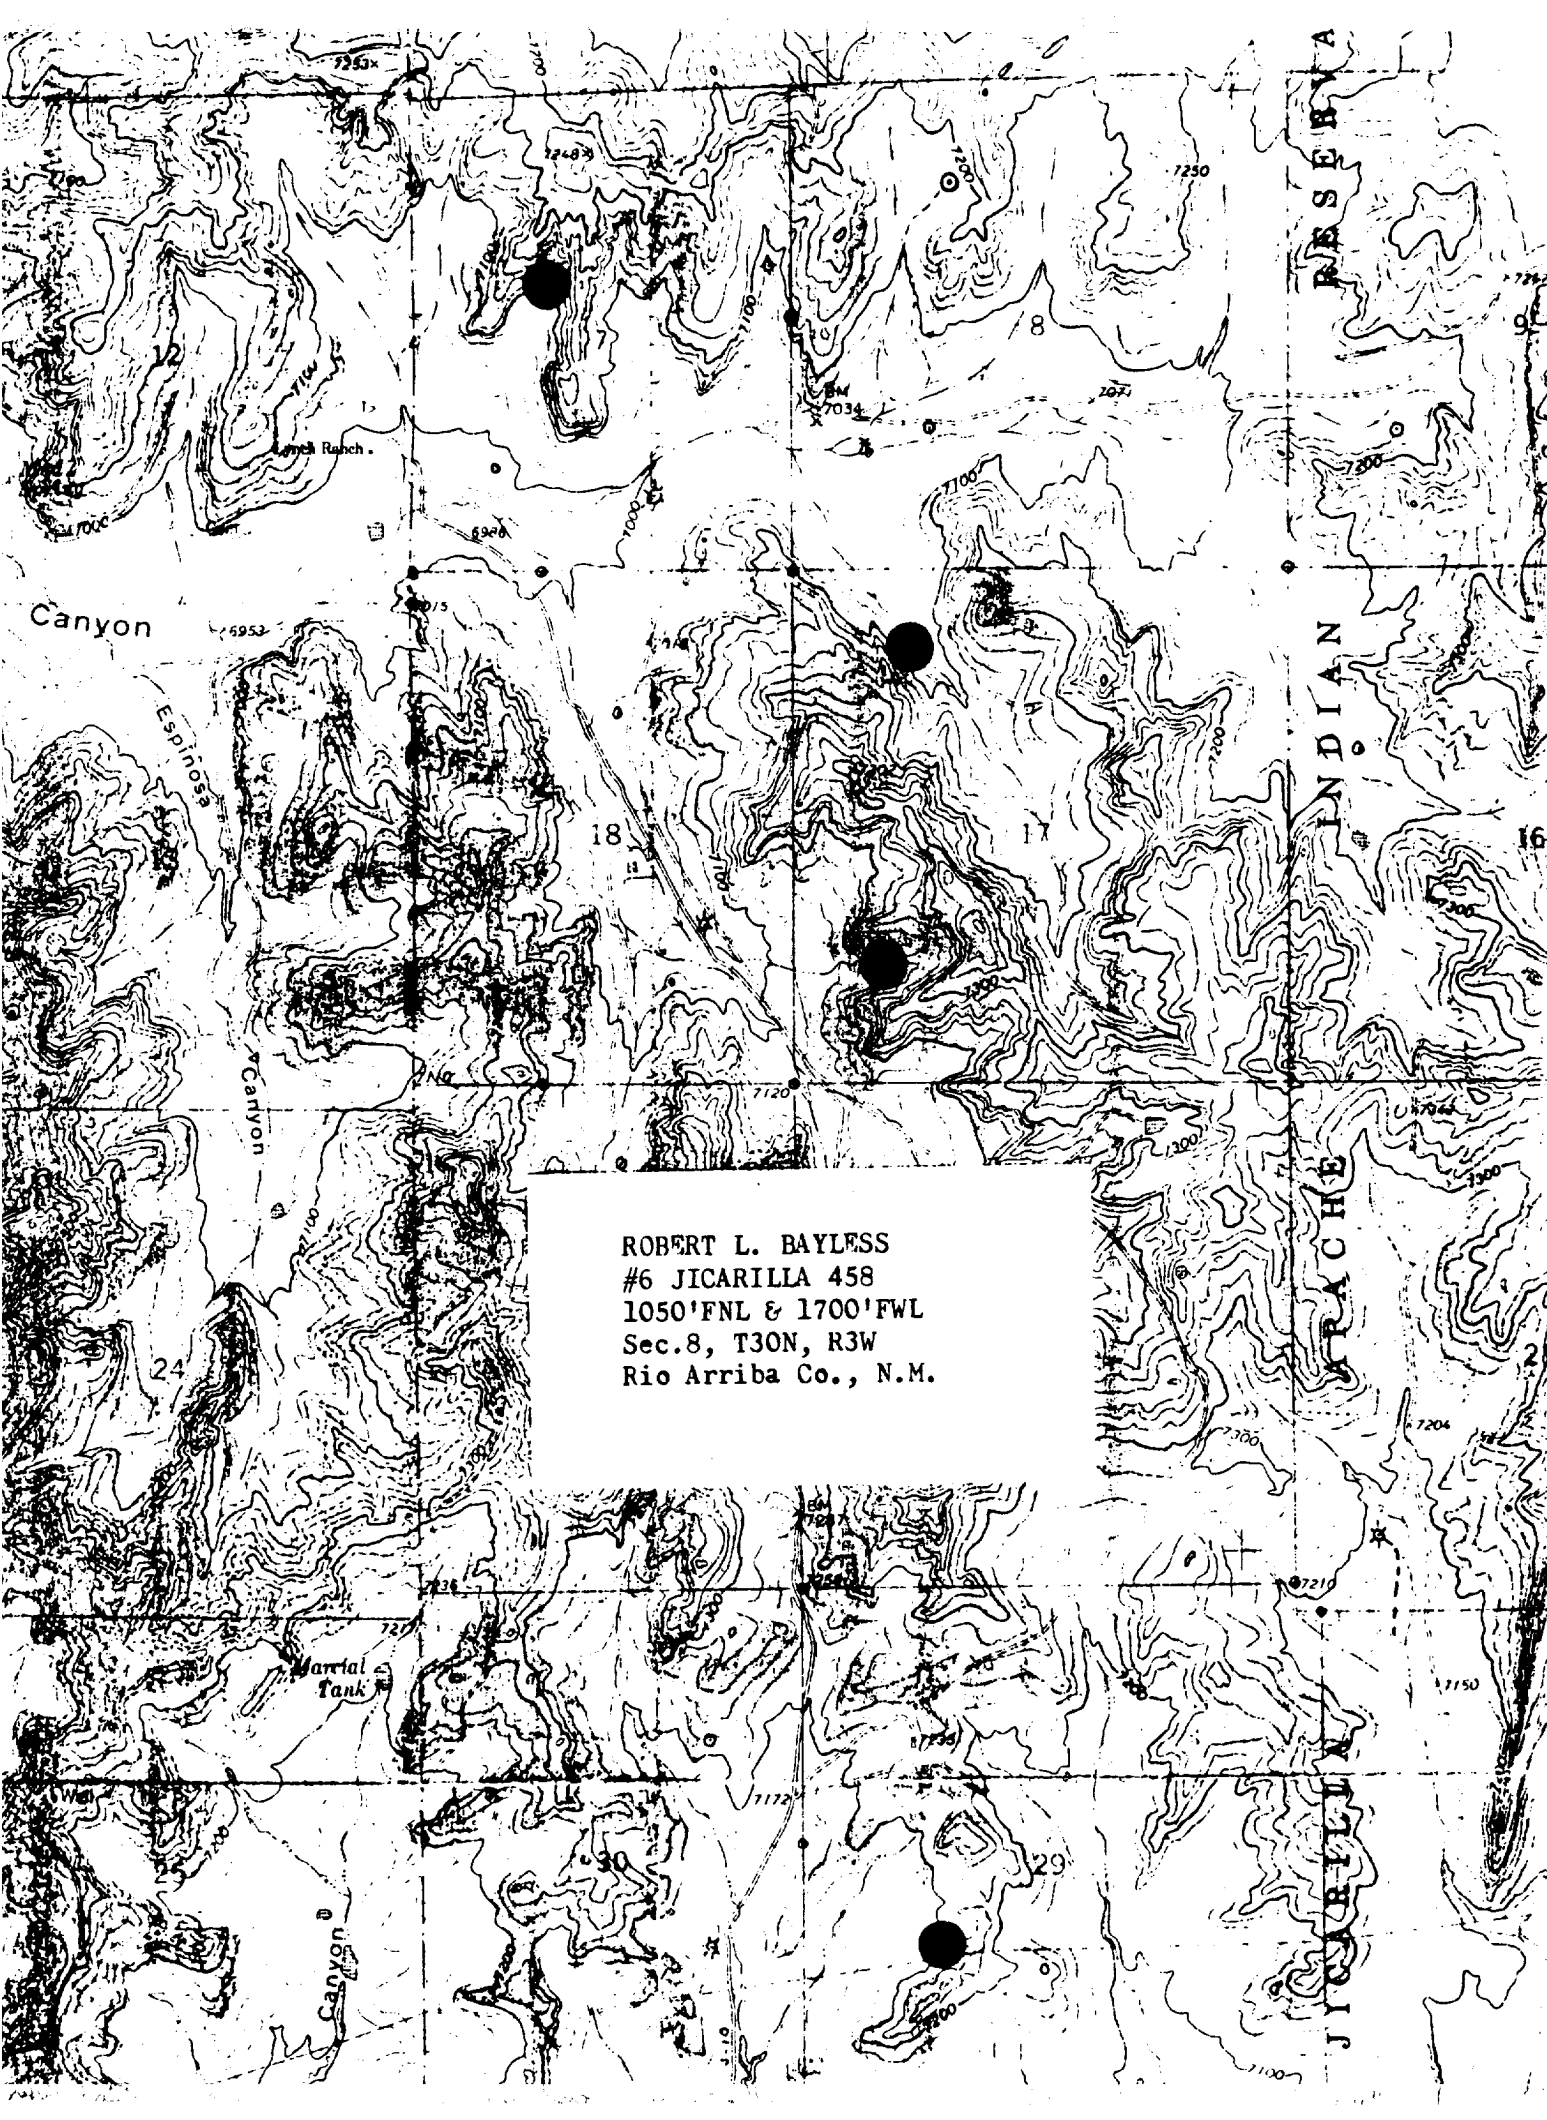

Kevin H. McCord
Petroleum Engineer
