If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Request 10-day extension to vent gas from the Ojo Alamo formation in this well. (Verbal approval was received from Errol Becher on 6/12/89). We wish to change out bottomhole assemblies in this well which will require more flaring of Ojo Alamo gas. We anticipate this work will be completed by June 22, 1989.
