(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Phillips is proposing to install a dike drain at this salt water disposal facility for the removal of stormwater. Prior to opening the drain valve, the operator will inspect the facility for visible signs of produced water leaks or spills. The drain valve will be sealed closed at all times except during actual dike draining. A Phillips representative will be onsite while the drain valve is open. The inspection forms and seal records will be kept onsite.
