Attention: Peggy Bradfield

Administrative Order NSL-2906

Dear Ms. Bradfield:

Reference is made to your application dated September 6, 1990 for a non-standard coal gas well location for your San Juan 30-6 Unit Well No. 498 to be located 2185 feet from the North line and 2295 feet from the East line (Unit G) of Section 30, Township 30 North, Range 7 West, NMPM, Basin Fruitland Coal (Gas) Pool, Rio Arriba County, New Mexico. The E/2 of said Section 30 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

William J. LeMay

Re: San Juan 30-6 Unit #498
2185' FNL, 2295' FEL
Section 30, T-30-N, R-7-W, Rio Arriba County, NM

Gentlemen:

This is an application for administrative approval for non-standard location of the referenced well in the Fruitland Coal formation. This location is necessary due to the terrain features of this section as shown on the topographic map.

The following are items for your consideration:

1. Application for Permit to Drill as filed with the Bureau of Land Management.
2. Completed C-102 showing well location, proration unit and leases within the unit.
3. Plat showing offset operators/owners.
4. 7.5 minute topographic map of well location, showing the orthodox windows for the east-half dedication; and enlargement of the map to define topographic features.
5. Archaeological report.
6. This well may be deemed economically unfeasible due to incremental directional drilling costs of \$88,000.00.
7. Affidavit of notification of offset operators/owners by certified mail, and waiver signed by Blackwood & Nichols.

Please let me know if you require further information.

Sincerely,

Peggy Bradfield
