

T.A on 3-14-98

To: Serrano, Christy

Subject: JIC. 458 8 #6 C-8-30N-3W 30-039-25457

Production report shows this well has produced 4/98. C104 was never approved for Mesaverde. Our records show that on 3/24/98 it was T.A with CIBP. You are not to produce without a C104 approval. When the zone is ready to produce we need a sundry telling us the CIBP is removed and a C107, MC with the other 2 zones.
